Specialization

Gabriel Villacis

Technical Lead | Software Architect | Cloud Native Technologies
Expert | Machine Learning Enthusiast | Java, Scala, JS, C# & Python
Guayaquil

Extracto

Software Engineering senior professional with more than 9 years of experience leading the design and implementation of mission-critical software solutions for industries such as: banking, commerce, marketing and telecommunications.

I am currently focused on the design of distributed systems and reactive systems based on microservices and event-driven architectures, adopting the DevOps culture and the use of cloud native technologies such as: Spring Webflux, Spring Cloud, Camunda, Kafka, Docker, Kubernetes and AWS.
